Walk lasted between 12:00 and 14:05. Tournament Park was closed.

We had another great walk. Got 30 species. Anytime you get 30, you are doing great. I thought we were going to tie the record of 32 for the week. Towards the end we needed a Western Bluebird, which we had been seeing for the last several weeks, and a Mallard, which had also been there recently and was 75% probable. But not to be. One factoid for you. As we peered

through the fence into Tournament Park I was inspired to call Facilities and found out that it will reopen on March 28. So, we can look forward to that.
