Walk lasted between 12:00 and 14:00.

We had a great walk, falling just two short of the record for the week. And, we had some great birds, including Ash-throated Flycatcher, Cassin's Kingbird, Pacific-slope Flycatcher, and a European Starling. The yellow-rumped warblers are fading fast; we only recorded 2 for the day. Next week, the probability is only 25%, so it will be interesting to see if any are still around.
