Walk lasted between 12:00 and 14:03. Tournament Park was open.

We had a fine walk. Almost a re-run of last week. We observed 24 species, 0.7 species more than predicted, and 5 above the median for the week. The yellow-rumps are gone, right on schedule. The Cooper's are still on the nest on Arden, but we only saw 1. We saw Starlings nesting in two places, one was on Wilson, which we have been seeing, and a new nest hole as you come out of Tournament Park. Oh, and the Snowy Egret was back. Nice walk.
