Walk lasted between 12:00 and 14:03. Tournament Park is still closed.

Not half-bad. We recorded 23 species while the predicted was 20.0. It was a beautiful day with a slight breeze and 72 F. As I said, not half-bad. We got most of the species we should have gotten, except for House Wren. Maybe when Tournament Park opens up again, we'll get one. That's mainly where we saw them. But we have been able to peek through the fence in the area where we saw them and no luck. So, they may have flown the coop. I think maybe Tournament Park will be open on the next walk, which will be June 15, the grand re-opening date for California.
