Walk lasted between 12:00 and 13:49. Tournament Park closed.

We had a new walker, Bernice Hernandez, visiting from Colorado. Either she didn't know the drill for a new walker or maybe she couldn't bring them on the plane with her, but she did not bring any bolt cutters to the walk. I thought everybody knew that a new walker brings bolt cutters to get into the gates that are locked. And the gates were locked to Tournament Park. I keep saying I will contact Caltech about it, but so far I keep forgetting to do so. We got our predicted count of birds (rounded). The prediction was for 18.7 and we got 19. And we had a couple of interesting ones that weren't actually on the check list: Cassin's Kingbird and Hooded Oriole. So, it was a good walk. Welcome Bernice. I believe she may join us a few more times before she heads back to Colorado. Happy 4th everybody.
