Walk lasted between 12:00 and ? Tournament Park closed.

Well, I missed the walk today so I can't give a first-hand account. I can quote Viveca, who led the walk and sent me this email: "Walk started out by myself up to community garden on Wilson. Up to that point I had been setting a record for lowest people walking, lowest sights of birds and hottest day; then I got the text from Chris that they were there. ...but when Chris and Bernice arrived things changed to a "normal" walk."

Well, they were above normal, which would have been 12 and they got 15, only 3 short of the record 18 for week 31. So, good going team!
