Walk lasted between 12:00 to 13:45. Tournament Park was closed, as it has been for months. However, we did manage to get past the fake-locked gate on Wilson just south of IPAC and that turned out to be very useful. We saw 2 Oak Titmice, 1 Bewick's Wren, and a Spotted Towhee back there. We wound up with 20 species, which was one short of the record for a week 35. Had we gotten that number last week, we would have set the record by 1. So, it was a very good walk.
